Fedele Castilla y León

FEDELE Castilla y León was founded with the intention of uniting the efforts and interests of the best schools in the sector, and promoting solidarity and collaboration among its members.

What guarantees do we offer?

All member schools guarantee the high quality of their courses, accommodation and other services through accreditation by the Instituto Cervantes (Accredited Center). These guarantees include:

- meet quality requirements in the teaching of Spanish;
- comply with the legal requirements for teaching;
- have adequate resources for teaching;
- have a team of teachers with appropriate qualifications and training;
- follow a teaching plan that guarantees adequate progress;
- establish a maximum number of students per class;
- To carry out a truthful advertising in relation to the offer;
- clearly detailing the prices of courses and complementary services.

What does Castilla y León offer you?

Many of its destinations such as Ávila, Salamanca and Segovia (three World Heritage Cities) and unique places such as the Cathedral of Burgos or the Atapuerca site, with testimonies of the first settlers of Europe, are essential visits. The famous Camino de Santiago, one of the most important pilgrimage routes in the world, also passes through Castile and Leon.

What are our objectives?

Among the objectives set out in the association's statutes, it is worth mentioning

- the will to defend and guarantee the quality and image of the sector;
- the promotion of Spanish as a foreign language through collaboration with public and private institutions;
- the defense of the professional and economic interests of its members, and of professional ethics.

Ávila (Castilla y León)

Its walls

The iconic wall of Ávila can be visited with a route of 1,700 meters. Its views of the Cathedral, the Plaza del Mercado Grande or the city's surroundings are well worth a climb. This cathedral is considered the first Gothic cathedral in Spain and is attached to the wall because it was also designed as a fortress.

Todo ello sin olvidar su capital, que guarda en sus

Special moments

Ávila is a quiet city that invites you to enjoy the time calmly. For example, the moment of sunset from the viewpoint of the Four Poles. If you approach it at nightfall, you will discover the view of the wall illuminated in the dark.

The hour of the food is also a good moment to enjoy in Avila. Its meats are famous, especially the veal chop; and the beans from El Barco de Ávila and the egg yolks from Santa Teresa are very popular. You can taste everything with the DegustÁvila menus that you will find in many restaurants in the center.

Where is it located?

Ávila is a Spanish city and municipality, located in the province of Ávila, in the autonomous community of Castilla y León. It is located next to the course of the Adaja River and is the highest provincial capital in Spain, at 1131 m above sea level, which means that snowfalls are relatively frequent in the city center during the winter.

Salamanca (Castilla y León)

City of secrets

To enter the monuments of Salamanca is to do so in a world of legends and stories to be discovered. A good walk begins in its famous Plaza Mayor, the meeting point par excellence in the city. Having a coffee in the mythical Novelty, contemplating its 88 arches or sitting quietly on any of its terraces is really worthwhile.

To enjoy

What is sure to be no secret is how well one eats in this city. Some of its typical products are the sausages, the ham from Guijuelo or the popular hornazo -an empanada filled with egg and ingredients such as loin, chorizo...-. You can buy them to go, although eating them here will surely taste better.

Speaking of shopping, the pedestrian streets of Toro and Zamora are full of stores and in the Plaza del Liceo you can even go shopping in the reconditioned church of the old San Antonio el Real convent.

Where is it located?

Salamanca is a municipality and Spanish city, capital of the province of the same name, located in the autonomous community of Castilla y León. It is located in the region of Campo de Salamanca, in the middle of the Northern Plateau, in the northwest quadrant of the Iberian Peninsula.

The first time you walk under the stone arches that give entrance to the don Quijote Salamanca school, you will be filled with the sense and inspiration that can only come from a space built many years before. The interior of the 16th century building has been completely modernized, but some of the old stone walls have been deliberately left exposed, to put students in direct contact with hundreds of years of Spanish history. The classrooms are structured in a circle around the central patio, where students can go outside for a breath of fresh air between classes. There is also a cafeteria where you can try the delicious local cuisine while practicing your Spanish and socializing with other students.

Spanish Language Courses in Salamanca

It was here, in Salamanca, in 1492, where the first grammar text on the Castilian Language was published by Antonio Nebrija. Today the University of Salamanca which is, by the way, the oldest university in Spain is named after him. This historical fact and the University became symbols of the city of Salamanca and expanded its fame as the birthplace of the Spanish language.

Valladolid (Castilla y León)

Culture and traditions

The city enjoys an intense cultural life thanks to its status as a university location, as well as events such as the Seminci, the International Film Week, an essential date on the Spanish film calendar, or the International Festival of Street Theater and Arts.

Another event that marks the life of Valladolid and awakens the fervor of its inhabitants is the Holy Week. Declared to be of International Tourist Interest, its processions are a true parade of sacred works of art.

The University building, whose baroque façade is decorated with various academic symbols, and the Santa Cruz School are proof of the cultural importance of Valladolid.

Leisure and spaces

Valladolid offers a wide range of leisure and cultural possibilities: cinemas, theaters and museums, such as the National Sculpture Museum, located in the San Gregorio school. This splendid building in the Flemish Gothic style, one of the most outstanding constructions in Valladolid, stands out for its exhibition of polychrome carvings by artists such as Alonso Berruguete and Gregorio Fernández.

Where is it located?

Valladolid is a municipality and a Spanish city located in the northwest quadrant of the Iberian Peninsula. It is located in the center of Castilla y León and borders all the provinces of the community, except for Soria.
